Cupyd:

users → sign up → Take the character test → Allocate into a specific class of character (E.g Quiet country)

Take the hobbies test

Allocate into a specific class of hobbies (E.g. sports lover)

According to the answer of test, system could choose a best similarity person match with users, but can not visit users' profile, can only chat or voice call.

Once two users both have interest to each other, and willing to know each other deeper, they can turn off the profile constraint to each other.
